About This Content

The F-5E was developed by Northrop Corporation in early 1970s. The light tactical fighter is an upgraded version based on previous F-5A developments. The F-5s' combat role encompasses air superiority, ground support, and ground attack. Given its mission flexibility, ease of operation, and low cost, the Tiger II has, and continues to serve, air forces across the globe.

The F-5E is armed with two 20-mm M39-A3 cannons with 280 rounds per each cannon. The cannons are located in the nose section, forward of the cockpit. Special deflectors are used to avoid compressor stall conditions caused by hot gas ingestion as a bi-product of operating the M-39-A3. Each cannon is capable of firing at a rate of 1500 to 1700 rounds per minute.

Each wingtip incorporates a launcher rail capable of firing AIM-9 infrared-guided missiles.

Five hard points (one centerline pylon and four underwing pylons) allow the aircraft to carry different types of air-to-ground weapons (bombs, cluster munitions, and rockets) 6,400 pounds (about 3000 kg) in total. In addition, illumination ammunition and cargo containers can be attached. To increase flight duration and range, external fuel tanks can be attached to three hard points (a centerline pylon and two inboard pylons). Maneuverability and speed can be maximized in combat by jettisoning all external stores.

Key Features of the DCS: F-5E Tiger II:

- Professional Flight Model that accurately mimics the performance and flight characteristics of this legendary fighter

-
- Highly detailed, six-degrees-of-freedom (6 DOF) cockpit
 - Interact with cockpit controls with your mouse
 - Fully modelled weapon system
 - Accurate F-5E model with multiple country markings
 - Detailed modelling of the F-5E instruments, engine, radios, fuel, electrical, and hydraulic systems
 - Single missions and full set of training missions will be created while in Early Access
 - Full and Quick Start manuals in Russian and English languages
 - Extended Campaign for the F-5E by Maple Flags Missions Developer (not included in the module package)

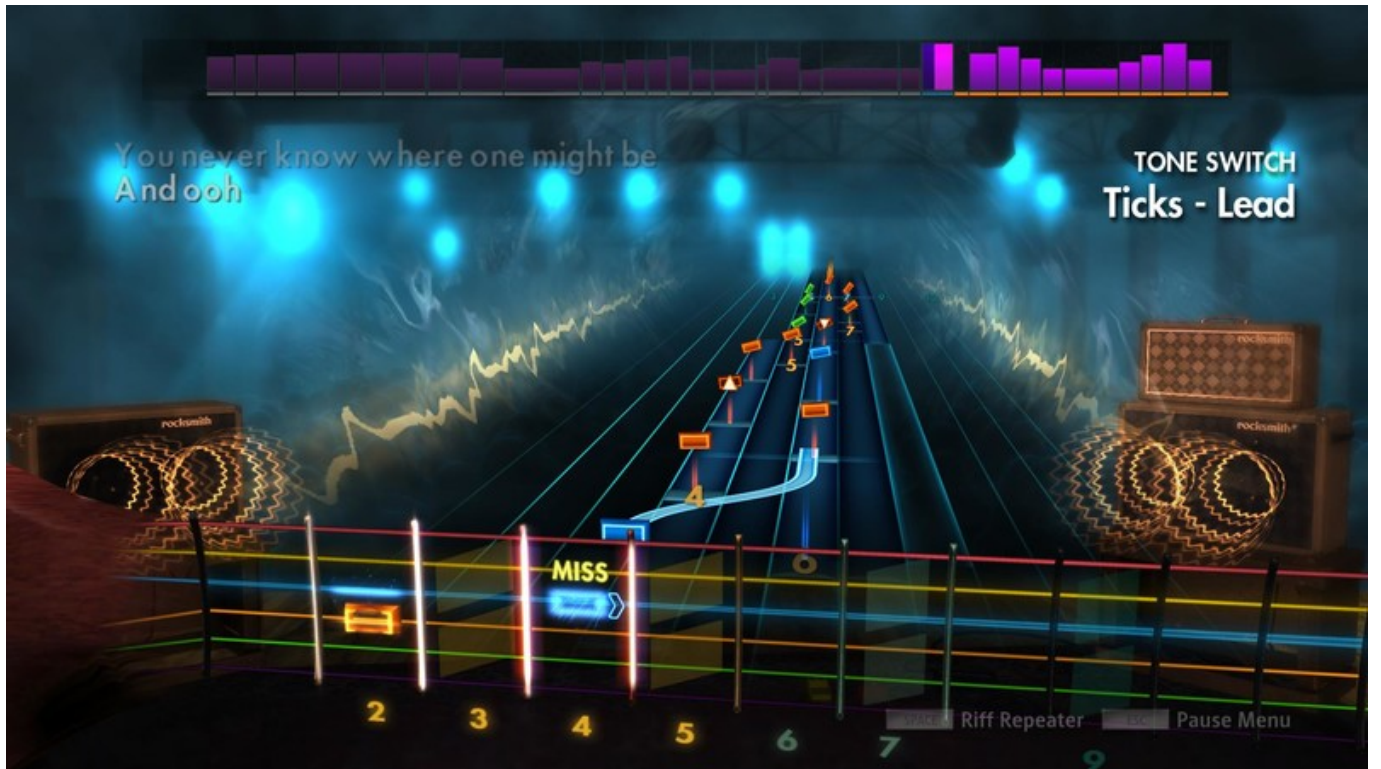

Title: DCS: F-5E Tiger II
Genre: Simulation
Developer:
Belsimtek
Publisher:
The Fighter Collection, Eagle Dynamics SA
Release Date: 2 Dec, 2016

a09c17d780

Minimum system requirements:

OS 64-bit Windows 7/8/10; DirectX11; CPU: Core i3 at 2.8GHz; RAM: 8 GB; Free hard disk space: 60 GB; Video: NVIDIA GeForce GTX 770 / ATI R9 280X DirectX11); requires internet activation.

English,German,Russian,Czech,French,Simplified Chinese

Its overall a good realistic aircraft. Bought this to hold me off until I can get the A2A Cessna, but since i'm saving up to build a more capable PC for all my FSX addons, I bought this since it was cheaper and is still a really good realistic aircraft to add to the hanger.. I hope you liked fighting the Smelter Demon in the base game, because you get to fight it again now in Cool Ranch flavor.. Would be fun if there was an unlimited play without a time limit. I love puzzle games I can play when watching TV and the sort but this is not it at all. Will stick with the Zen mode of the Bejewled Twist Demo.. They "officially" released it over half a year ago, and then abandoned it. The devs told me on their facebook page and on the official forums that they'd add more layers. and improve it even further. But nope. Haven't heard anything since. Get Clip Studio Paint instead if you're seeking for a paid program.

EDIT: Almost 4 months in since last developer "update", and we've not yet received an update to make Black Ink better. The software is still in Early Access.

EDIT 2: Another 4 months have passed. Still nothing new :). Its a good and fun game but load to much . Needs to let you control lobbys & let you respawn . let you control the amount of killz you need before the game over . like first to 30 killz . well idk if needs word because it get boring being able to only run one game. If you die then you have to wait 5 minutes before you can go again. If this was like the PC game version then this would be the best game out or ever. Please make this vr game like the PC version .. Felt this title was a bit dated in comparison to other VR games. Sword play also didnt feel right, but then again your a wizard and spell casting is cool. Its free and is a tech demo. Moved swiftly along.

Hilarious. Sent my engineer out on the wing to fix an engine...engine on the other side catches fire so I go into an emergency dive to put the fire out...my engineer slides off the wing and falls to the ground...KIA. The memorial wall of all your lost airmen is a great touch. I miss those guys.. This game doesn't even run offline. What is this, some kind of copy-protection? I'm sorry, but nobody is trying to pirate this game, I guarantee you.. Dear Hoo-Boy
I hate you. I hate your candy land, your stupid insects, your fish on meth, and especially your godforsaken buzzsaws. You are a menace to all things dressed as cute platformers.

In my hours playing you I felt great pain. WHY DO FISH LIVE IN A FROZEN WORLD WITH BUZZ SAWS! Who traumatized you as a child to make this game?!?

In saying that, it was very fun. My friends enjoyed watching me rip my hair out.

It is fun, makes you think, and isn't THAT difficult, save for a few PAINFUL levels. Well worth the price.

DO NOT PLAY WHILE UNDER ANY OTHER INFLUENCE, IT BECOMES HARDER!.. Unfortunately, I cannot recommend this game.

First, there is no subtitles at all (strange, considering the #1, had them), and the talking, arguability little, use quite thick accents or are purposedely distorted, so it's very hard for a non-native english speaker to get what is said.

Second, the game is really hard to complete without a walkthrough. I mean, I'm not a novice at adventure games, but often this one just doesn't give any hint at what to do next. The last 25\30% of the game can only be reached by clicking in a random spot at a random place, and then again we don't know why we are doing this. It just makes zero sense (at least to me).

Which leads to the story. Really, to me the first 2\3rd were good, with a nice atmosphere of a ghost story.
But then, in the last part, the story starts not making any sense at all. It follows a totally different path, seemingly just forgetting the initial setup. The end game is semi-nonsensical, with plenty of loose ends everywhere...

Beside the final one, puzzles are relatively rare. Due to the lack of clues, your time spent on the game will be mostly running errand, clicking and turning everywhere to look for what you missed. They are not rewarding, either, often having little relation to the main plot. The main\final one just doesn't make any sense at all, imho.

I finished the game following a walkthrough, having just lost motivation to try to understand what was happening, and I even regret the time spent reaching the lacklustre ending, which says something...

. I'm writing this review having only played for a short while. I am really looking forward to completion of this game as i feel from what i have seen that it will be something truly awesome. I don't have a vr headset so played as a rogue, i had lot's of fun trying to blend in with the other bots and felt a sense of fear whenever the seeker looks my way. This is really good fun to play especially if you are on voice comms with the other players. Good job and looking forward to more!. This game on steam do not work. I purchase it and haven't play a single game.. nên sửa ở 1 số phần để thể hiện cho rõ, lỗi bị mất voice, ở phần chế tạo nên để nền đồ có thể chế tạo bị mờ đi ,khá tốn công khi phải vào từng phần để coi có thứ gì có thể chế tạo tại sao lại không thể nhặt được nhưng con ốc bị rơi vào trong tường??. Needed some rolling stock for my Steam era Pennsylvania K4 and these vintage looking Boxcars fit the bill nicely. They are highly detailed and each car is assigned it's own number and look great behind my old 4-6-2.
