Rankaware 4.1.3 Crack (LifeTime) Activation Code Free Download

Rankaware is an intuitive and efficient SEO tool that allows you to monitor various sites' rankings in the pages of several search engines, namely Google, Yahoo! and Bing, with user-defined keywords. The program is lightweight and very approachable, so even if your knowledge of SEO is rather limited, you can still make the most out of Rankaware. In order to determine the ranking of a specific

website, you first need to enter its URL address. The 'Keywords' section enables you to enter all the words, expressions or tags you want to use in the analysis, each one on an individual line. You can add as many entries as you want, and Rankaware will use them all to provide you with accurate results. The next step in discovering the position of your website is to choose the preferred search engines. This utility allows you to select one from Google, Bing as well as Yahoo!, corresponding to the country that you target. When you have finished, you can press the 'Done' button, and Rankaware will retrieve the relevant data from the selected search engines' pages. This operation can take a while, depending on the amount of input keywords. Rankaware offers the results in pie charts for each search engine, enabling you to determine the 'Rank Up, 'Rank Down' and 'Rank Unchange' values. It also displays a graph featuring your keywords and their position in Google, Bing or Yahoo!. This piece of software allows you to add multiple websites and monitor them daily, by pressing the 'Update' button. This way, you can get a comprehensive image of any occurring changes, and find out for instance, if your latest actions have had a result in raising your website's ranking. To conclude, Rankaware is a reliable application that can prove useful in helping you track your website's search engine ranking, as well as that of your competitors. Download Rankaware DaftSoft SEO Analyzer is a PHP-based software that allows you to evaluate the qualities of your website, including its title, description, URL, page ranking in Google and other search engines, as well as web site traffic. The program enables you to do a Web search using a convenient easy-to-use interface. Furthermore, this freeware allows you to perform a site check and conduct a keyword analysis. The 'Keywords' tab enables you to enter key words or phrases, and the 'Report' button will help you evaluate your website's position in comparison to other related websites. b7e8fdf5c8
